

100% Natural Ingredients

Safe for use with a

powerful antibacterial effect

Plus

Deodorant effect

NATURAL LIFE Our proposal

All natural to protect family

Choose a product that is safe for your important family.

Because food additives are the main ingredients, the product is safe for use around children.

Use on clothing, toys, beds and baby items

High-alkaline kills bacteria and removes odors.

When dissolved in water, it is a strong alkaline aqueous solution. It has a strong effect on disinfection and deodorant.

Using heat-treated wild scallop shell powder

■ Serotype 0-157
■ Escherichia coli
■ Staphylococcus aureus
■ Salmonella

Liquid used: 25°C saturated aqueous solution about 0.1%

Testing centers:
Tokyo Metropolitan Food Technology Research Center
Japan Food Research Laboratories
Kyoto Biological Laboratories

Wonder Shell [SUSHI]

100% natural detergent
Vegetable wash

Fill a bowl with water, add a small amount of SUSHI, and soak vegetables in the bowl.

SUSHI removes pesticides residues and bacteria by the powdered WONDER SHELL, absorbs pesticides and helps to prevent from re-sticking on the surface of the vegetables.

Furthermore, the effect of maintaining freshness is also enhanced.
